- Implementation of MVC architecture and documentation for new staff, reducing adaptation time by 70%.
- Development of chat services, increasing user engagement by 20%.
- Setting up CI/CD for testing stages (GitLab CI/CD, Vercel) and deploying services to production (GitLab CI/CD, Docker, AWS).
- Implementation of multilingual support, expanding platform reach by 40%.
- Deployment of Self-hosted Sentry for project logging and monitoring.
- Implementation of Web3 wallet using VueJS to extend platform functionality and make communication between web platform and blockchain.
- Creation of map and route visualizations, increasing user engagement by 25%.

**Software Developer Intern**  
*LLC Inomad*

**June 2021 - July 2021**  
*Kazakhstan, Almaty*

- Development and maintenance of web components and services using ReactJS.
- Integration of frontend with backend via API, writing and conducting functional tests.
- Project architecture design using UML and Mermaid, creating technical documentation.
- Project design development assistance in Figma.
- Development process using Agile Scrum (Jira), increasing project completion speed by 30%.
- Implementation of multilingual support, expanding platform reach by 40%.
- Creation of map and route visualizations, increasing user engagement by 15%.

## PROJECTS

**Staking dApp**

**Oct 2022**

Deploy: <https://staking-dapp-three.vercel.app/> GitHub: <https://github.com/Maxalash/staking-dapp> Contracts: <https://github.com/Maxalash/smart-contracts-with-deploy-and-verify>

- Application for NFT staking on the Goerli ETH network.
- Used Technologies: ReactJS, NextJS, Solidity, Hardhat.

## Nigma Galaxy

May 2021

*GitHub: <https://github.com/Maxalash/Social-network>*

- The app was developed for communication and content-making based on Instagram.
- Used Technologies: ReactJS, Django, SQLite3.

## SKILLS

<b>Programming</b>	JavaScript, HTML, CSS,
<b>Frameworks</b>	ReactJS, NextJS, VueJS, Angular
<b>Technologies</b>	Git/Gitlab (CI/CD), Vercel CI/CD, Docker, Sass/LESS, Redux, Vuex, OpenstreetMap, Leaflet, Bootstrap
<b>Project management</b>	Kanban (Trello), Agile, Scrum (Jira)
<b>Languages</b>	Kazakh (native), Russian (Fluent), English (upper-intermediate)
